

MEDIA RELEASE

Perot Systems senior executive appointed Managing Director of Methodware

Wellington, New Zealand, 11 November 2009 - Jade Software has appointed Mr Paul Stokes as Managing Director of subsidiary Methodware. Methodware is a global leader in governance, risk and compliance software for the financial services sector and also distributes Investigator, Jade's innovative investigation management solution used for solving complex crimes by some of the world's most respected police forces.

Mr Stokes was most recently Vice President Sales (ANZ) for global IT company Perot Systems and has previously held UK based senior executive roles with Cognizant Technology Solutions, Detica Group and Deloitte Consulting. Mr Stokes has extensive experience in the financial services, security and intelligence sectors in the Asia Pacific, Europe and North America.

Jade Software Managing Director and Chief Executive, Craig Richardson said Mr Stokes was a stand out candidate for the role. "Paul has a very clear vision on where he wants to take our Methodware and Investigator business. He has a track record of delivering exceptional results, developing key talent and exhibits the entrepreneurial spirit we look for in our executives".

Mr Stokes added "I am excited to be joining Methodware during a very dynamic time in both the financial services and security industries globally. I believe Methodware is well positioned to take advantage of the changing nature of the financial services market as it recovers from the recent crisis. In addition, with the increasing complexity of criminal activities Jade Investigator continues to see significant growth opportunities"

Mr Richardson also thanked departing Methodware Chief Executive, Dr Chris Moxon. “Chris has led the Methodware team since 2004, growing it to be recognised by Gartner as one of the top vendors in the market. Under Chris’s leadership Methodware has come to be trusted by some of the world’s best known brands including RBS, Lloyds of London, Adobe and BDO North America”.

Mr Stokes commences employment at Methodware effective from 1 December 2009.

ENDS~
