

# AUT EVENTS

## COVID-19 PROTECTION FRAMEWORK

### EVENTS AT ORANGE

#### Vaccination

Everyone is welcome at AUT, regardless of vaccination status.

#### Contact Tracing

This is no longer required.

#### Physical Distancing & Masks

There are no maximum attendee limits for indoor or outdoor gatherings, nor are there any physical distancing requirements.

We do still recommend you wear a mask (NOT a face covering) when you attend an event at AUT, except when eating. However, this is not a requirement.

#### Symptoms

You must not participate in any events if you have any COVID-19 symptoms, are waiting on test results or if you need to be in isolation for any reason. If unwell, stay home.

#### Catering

There are no requirements for when food or beverage is served. The AUT Events service team will still wear masks at events.

#### Cleaning & Hygiene

All hard surfaces and bathrooms will be cleaned and disinfected regularly.

A strict hand washing and food preparation process will be in place, as well as hand sanitisers stationed throughout event spaces.

For staffed events, hand sanitisers will be available for your registration desk. For room only bookings, we encourage you to supply your own hand sanitiser for your registration desk, or we can provide for you at cost.

#### Event Attendees

Please ensure you share these instructions with all your event attendees.
