ThirdEye**

Jade ThirdEye is a secure SaaS solution that's purpose-built to automate transaction monitoring, customer screening, case management and AML reporting, to help you comply with confidence.

Key components of your AML program are automated with simple workflows and customisation options to suit organisations of any size.

TRANSACTION MONITORING

Use our extensive rules library or define and build your own rules to identify suspicious activity quickly

CUSTOMER SCREENING

Instantly identify high-risk customers at onboarding, plus ongoing screening against updated global watchlists

CASE MANAGEMENT

Create and manage investigations into suspicious customer behaviour with a streamlined end-to-end solution

INTEGRATED REPORTING

Automatically create and submit reports to AUSTRAC

PROVE COMPLIANCE

Use the reports and audit trail for auditing and traceability

CUSTOMISED IMPLEMENTATION

Configure your system to meet your specific risk profile

What our customers say

FinClear

“Jade ThirdEye helped us cut through complexity with a unified system for transaction monitoring and customer screening, replacing three outdated legacy systems. The Jade team helped us clarify and enhance our requirements during deployment and for several enhancements thereafter.

Recently I requested a relatively complex enhancement that would have taken weeks with the legacy system and the Jade team responded, *“We’ll have it done by the end of the day.”*

PARTNERS AND ASSOCIATES

How we can help

Advanced transaction monitoring with integrated customer screening

An efficient, single system for critical workflows, a consolidated source of truth, and flexibility to work with either Dow Jones or LSEG World-Check data.

Write, test, and publish rules

You have the control to make changes in response to emerging risks, new regulations or your evolving risk profile.

Simple and easy to use

Get started and train your team quickly, spot suspicious behaviour, and spend more time on investigative efforts, with user-friendly web-based interfaces, dashboards, and workflow tools.

Near real-time monitoring

Detect suspicious behaviour as soon as it occurs.

Comply with confidence

Monitor increasing volumes of transactions and instantly identify high-risk customers through real-time screening.

Automated SMRs, IFTIs, TTRs

Save time with pre-populated reports and automated submissions to AUSTRAC.

Comprehensive AML Case Management

Perform comprehensive investigations into suspicious customer behaviour and create detailed customer profiles, stored in one central location.

SaaS and subscription-based

Benefit from low cost of ownership, limited IT overhead, the ability to scale, and seamless access to the latest features.

Trusted professional services

Access local support and subject matter expertise to maximise your AML/CTF compliance; trusted by more than 160 reporting entities globally.
