### 1. ROLE PURPOSE

- You identify a client's problems, seek opportunities, and ultimately provide solutions that help achieve the goals of the business
- You play a key role in the implementation of software systems working with people across multiple departments
- You drive identification of requirements across business units and identify substandard systems processes through evaluation of real-time data
- You play a key role in communicating between internal departments and external parties, acting as a 'translator' where necessary to convey how information technology can support the organisation's needs

### 2. KEY ACCOUNTABILITIES & EXPECTATIONS

#### Analysis

- You conduct investigative work to determine client business requirements, problems, and opportunities
- You analyse information and create suggestions for strategic and operational improvements and changes
- You produce appropriate supporting artefacts to document analysis

#### Requirements Definition and Management

- You effectively communicate client business requirements to the development team, collaborating with the team to develop the requirements
- You own the project requirements ensuring they reflect the current state of the project

#### Stakeholder Relationship Management

- You work with internal stakeholders to understand and resolve requirements of the development process
- You work with external stakeholders to understand and investigate feedback into the product provided
- You appropriately escalate client or development requirements to find resolution

#### Jade Values and Culture

- You know our values, what they mean to us and behave in line with them
- Feedback regarding your behaviour in line with the values from your stakeholders is positive and you seek feedback on areas where you might feel challenged
- You keep up to date with our vision and purpose, strategies and priorities. You ask questions if you don't understand and challenge when you have different ideas
- You behave in line with our policies, procedures and legislative obligations

---

**Personal Development**

- You have an established training and development plan, in consultation with your People Leader and you commit to delivering against it each year
- You engage in regular development conversations with your People Leader and actively work on areas of your development.

---

**Safety & Wellness**

- You actively participate in and support safety and wellness initiatives
- You understand and comply with our safety and wellness policies and procedures including emergency procedures
- Report all accidents and incidents, including discomfort and near misses promptly
